

MINISTERUL MEDIULUI

**LIFE14CAP/RO/000007**

## **Project description**

Beneficiary: Romanian Ministry of Environment

Type of organization: National authority

### **Project Background**

The LIFE Programme introduced capacity-building projects for the 2014-2017 funding period. They are designed to help Member States participate more effectively in the LIFE Programme, and aim to increase the MS' capacity to submit successful LIFE project applications. MS that meet the criteria may receive funding of up to one million euros for one capacity-building project. Only national level-public bodies are eligible.

### **Project Objectives**

The Ministry's LIFE Unit plans to hold a country-wide series of presentations and actively support potential LIFE applicants by promptly answering queries and providing detailed guidance regarding the application and implementation processes. The general objectives are to increase awareness as well as the proposal submission and success rates of Romanian applicants.

### **Expected results**

A LIFE Communication Strategy and Calendar, in order to ensure a better understanding of the LIFE Programme;

Training for beneficiaries regarding LIFE-related financial, HR, implementation issues and best practices;

A LIFE info center;

Three Guidebooks on technical and financial issues of LIFE projects;

Raising awareness about the Programme and the importance of environmental protection and conservation measures among identified target entities and groups, project stakeholders and the general population;

Collaborating with universities, research institutes and other ministries the activity of which relates to the LIFE Programme's objectives (e.g. agriculture, water management, forestry, natural resources, smart urban management, industry);
